

Day 4 Conditional Statements

Data Science Internship - Python Week 1

What I Learned:

Learned decision making using if, elif and else statements. Used conditions to control program output.

Practical Work:

I wrote and tested Python programs related to this topic. The code screenshot below shows my practice work.

Code Practice Screenshot:

Learning Outcome:

After completing this task, I improved my Python programming skills and understood how this concept is useful in Data Science projects.

```
Visual StudioCode - Python

num = 10
if num > 0:
    print("Positive")
else:
    print("Negative")
```
